SKILLS

Programming Languages: C, Python, HTML, CSS, Java, PHP, JavaScript, Shell Script .

Tools & Platforms: Microsoft Office Suite, Visual Studio Code, Notepad++, SQL Server Management Studio (SSMS)

Canva , Google Drive, Corel Draw, Google Docs, Dev-C++ & Turbo C++, PyCharm

Soft Skills: Creativity, Active Listening.

PROJECTS

SportsWear E-commerce Website |

Jun' 24

- Develop a responsive Sportswear e-commerce Website using HTML, CSS, JS, PHP and firebase storage for browsing sports products.
- implemented user authentication, product search and filtering, shopping cart and admin panel for order management.
- Integrated PHP and firebase storage to manage user accounts, product data customer order a smooth and user-friendly shopping experience.

Food ordering website |

Jun' 25

- Developed a digital food ordering platform for university stalls using HTML, CSS, JavaScript, PHP, and MySQL, enabling students to conveniently browse and order food online.
- Implemented database integration for managing food items, customer orders, and order details, ensuring efficient data storage and retrieval.
- Designed a responsive and user-friendly interface with interactive features to streamline the food ordering process and improve the overall user experience.

Text-To-Speech Recognition |

Jun' 25

- Developed a Text-to-Speech application using Python that converts user-provided text into natural-sounding speech.
- Utilized Python libraries and modules such as pyttsx3 to implement speech synthesis and provide real-time audio output.
- Designed a simple and user-friendly interface with features for text input, speech conversion, and playback, demonstrating practical application of Python programming and libraries.

E-Commerce Website |

Jul'26

- Developed a full-stack E-Commerce platform using the MERN stack (MongoDB, Express.js, React.js, and Node.js) for ordering household and other products.
- Designed and integrated a MongoDB database for efficient management of products, users, orders, and transaction-related data.
- Implemented RESTful APIs, user authentication, product management, and shopping cart functionality, delivering a responsive and user-friendly online shopping experience.

TRAINING

MERN Stack Development | 6 months Internship | Certificate

Jan' 26 – Jul' 26

- Developed responsive and interactive web applications using MongoDB, Express.js, React.js, and Node.js, implementing modern full-stack development practices.
- Designed and integrated RESTful APIs and connected frontend components with backend services, improving application functionality and data management efficiency.
- Implemented CRUD operations, user authentication, and database integration using MongoDB, enhancing application performance and overall user experience.

CERTIFICATES

MERN stack Development | 6 months internship

Jul' 26

Full stack Development | 45 days

Jun' 25

Cyber security Hackfest

Feb' 25

Workshop on Full Stack Development by GeeksforGeeks

Oct' 25

EDUCATION

Lovely Professional University

Diploma In

Computer Science and Engineering; CGPA: 7.44

Bachelor of Technology

Computer Science and Engineering;

Phagwara, Punjab

Aug' 23 – Jul' 2026

Phagwara, Punjab

Aug' 26 – Jul' 2029

Kanchanjunga English Sec School

10th with the GPA of 3.2

Kanchanpur, Nepal

Mar' 22 – May' 23
